

## THE WORLD OVER

PROVINCES GET RELIEF GRANTS

BOY IS ATTACKED BY AN EAGLE

NAZI GOV'T. ASSAULTS CATHOLICS

DISEASE, FAMINE, FLOODS, COME

RECONSTRUCTION PARTY, NAME

**OTTAWA**—Payment of grants in aid to the provinces towards direct relief will be made for the month of July and cheques will go forward shortly.

Mr. W. A. Gordon, Minister of Labor announced last Thursday.

The payments will be as follows: Prince Edward Island, \$1,500; Nova Scotia, \$40,000; New Brunswick, \$25,000; Quebec, \$100,000; Ontario, \$600,000; Manitoba, \$125,000; Saskatchewan, \$20,000; Alberta, \$100,000; and British Columbia, \$150,000.

While riding for horses on his father's ranch 2 1/2 miles east of Bytown, Victor Jackson, 13 years, was attacked by an eagle. The lad sustained nasty wounds on the neck and hand, as the huge bird struck at him viciously. After a pause in the battle young Jackson succeeded in getting out his knife and mortally wounded his attacker as it came at him again flying up to tip the eagle measured 4 ft. long—Herald.

**BREITEN**—The Nazi government on Friday assailed Catholic disobedience and disaffection within its own ranks and launched new attacks against the Jews.

Father Ernest Vorog of the LaSalle order, was sentenced to two and a half years imprisonment and a fine of \$4,000 marks by a Berlin court for having violated the state's strict currency laws.

**YOKOHAMA**—More than two million Chinese seeking existence around the shores of Tungting Lake face death from disease and famine as flood—China's latest disaster—scourges the nation.

These stricken people are literally clinging to tree trunks or knolls which the encroaching waters have not yet submerged. They are eye-witnesses to the destruction of their homes, their crops, their kinship on Tungting Lake rolls over miles and miles of the surrounding hinterland.

**TORONTO**—The new Reconstruction Party with Hon. H. H. Stevens at the helm, has unfurled its banner in the 1935 general election campaign with a platform covering many phases of Canada's economic and social problems.

In a 4,000 word manifesto, the 4th alignment in the Dominion political arena on Friday made public its reconstruction and reform proposals.

The announcement setting forth a 15-point plan with ancillary proposals was made after Mr. Stevens had conferred with members of the party's provisional executive.

"With a country endowed with the means of supporting at least 50,000,000 people cannot support even 10,000,000 in decency and comfort there is obviously need for a change," the manifesto stated.

"What did you think of the fight last night, Bill?" "Fright" replied Bill, carefully. "If the mines and me 'd put up a show like that on Saturday night, the kids would be bored."

## LIBERALS NOW ACTIVE; MEET'S ARE ARRANGED

LIBERAL SPEAKERS TO BE HERE SATURDAY, JULY 20

### MCGEER COMING IN AUGUST

Liberals in the Didsbury Constituency are now active and meetings are being arranged throughout the entire riding.

On Saturday, July 20th, at 3 p.m. speakers will hold a public meeting in the interests of Andy Shelhite at Resketh, while in the evening the same speakers will hold a meeting in the Farmer's Exchange hall at Carbon.

These speakers, besides the candidate, will be: Geo. Clarke, federal candidate for Red Deer, J. J. Bowen, M.L.A., and W.H. Ross, M.L.A.

**McGeer To Speak Here July 24** On Wednesday evening, July 24th, W. H. Ross, M.L.A., and leader of the Liberal party in Alberta, together with A. Shelhite, will hold a meeting in the Farmer's Exchange hall at Carbon.

**Gerry McGeer Coming!** The famous Gerry McGeer of Vancouver has definitely announced that he will give the Liberal party a hand in electing and arrangements have been made by local liberals to give him the 20-year franchise.

The agriculture attaché at Buenos Aires, Cordoba, Santa Fe and the territory of La Pampa.

The agriculture attaché at Buenos Aires reported to the bureau of agriculture economies that in Cordoba and Santa Fe, where normally planning is completed by this date, more than one-third of the intended acreage is in seed.

The land is prepared and will be sown if rain comes, but the end of July is considered the latest advisable date for planting, he reported. Germination in the area already sown is poor, with the stand in many places only a fraction of normal.

600,000 in decency and comfort there is obviously need for a change," the manifesto stated.

## ELECTION IN ALBERTA WILL BE HELD THURSDAY AUGUST 22 WITH NOMINATION DATE AUG. 12TH

Hon. George Hoadley, minister of Trade and Industry announced on Tuesday afternoon that Alberta's provincial election will take place on Thursday, August 22nd, although the vote will not yet been held.

This means that nominations will close on August 12th, which is the ten days before election date, as set forth in the election act.

Returning officers for the 63 constituencies will be named in the near future, according to reports.

At its dissolution on July 11th, the standing of the legislature was as follows: U.P.A., 36; Liberals 14; Conservatives 6; Independents 4; Labor 3; vacant 1.

## DRUMHELLER TURNS DOWN LIGHT FRANCHISE PLAN

The Drumheller business failed to give the proposed 20-year electric light and power franchise to the Canadian Utilities Limited, the necessary two-thirds majority at the polls on Monday, the vote standing 148 to 102 against the franchise agreement.

Now that proposed 20-year franchise has been defeated, the town of Drumheller will remain off to itself November 1st.

The chief objections to the by-law appeared to be the 20-year term of the new franchise, while the service charge seemed to be the basic of some opposition.

W. H. ROSS, M.L.A., Liberal Leader in Alberta

Who will address meetings at Carbon and Kivier's Lake on Wednesday, July 24th.

## WHAT SOME TOURISTS THINK OF BANFF

**MOORE JAY**—He stopped at the local filling station to have his car overhauled and among the articles of baggage noticed by filling station attendants was a pair of skates. The tourist, who came from Chicago, was enroute to Banff, he stated, and explained the presence of his skates with the remark that he knew it would be cold with lots of ice and he thought he would enjoy a good skate.

## ECLIPSE OF MOON MONDAY NIGHT

Residents of Carbon were star and moon gazing on Monday night in search of the total eclipse of the moon, which was scheduled to take place between nine and eleven o'clock. Cloudy weather prevailed, and while the moon did show for awhile, it was not long before it vanished from sight—a total eclipse. Clouds blotted out the moon, and slight shower followed later in the night.

## DEATH CLAIMS OLD TIMER OF CARBON DISTRICT ON JULY 9

**FUNERAL OF MRS. MARY J. ROSS** The death took place on Tuesday evening, July 9th, of Mrs. Mary J. Ross, well-known old-timer of the Carbon district, who was born at Sherbrooke, Ontario, nearly thirty years ago. The demise took place at the home of her son, Mr. Chas. M. Ross.

Mrs. Ross was preceded in death by her husband in 1922 and two years later she took up homestead rights in the district. A few years ago she retired and went to reside with her grand-daughter at Calgary. Three months ago she came back to the farm for the summer.

Funeral services for the late Mrs. Ross were held from the home of Mr. Chas. Ross last Friday afternoon. Surviving are three daughters, Mrs. B. Burge, McLeod; Mrs. H.H. Davis, Sault Ste. Marie, Ont.; and Mrs. H. H. Andrew, Winnipeg. Two sons, Alex M. Ross, residing in Carbon, and Ross Swallow, and a grand daughter, Miss L. Millin, also survive.

Funeral home arrangements and interment was made in the Carbon cemetery.

## HOT WEATHER EASED BY RAIN

Last week-end was the warmest temperature experienced so far this year and on Sunday the thermometer reached 79 degrees in the shade. Monday was as hot, but on Tuesday a heavy shower fell and the heat waves and during the night a fine shower refreshed the soil.

The showers have not only been a factor in cool weather, but the moisture was welcome to gardens and wheat crops.

## CHRISTIAN COMMONWEALTH YOUTH MOVEMENT CAMP AT SYLVAN LAKE AUG. 2-25

The Christian Commonwealth Youth Movement Council is holding its first Province-wide summer camp for young people at Kananis Lake, Sylvan Lake, from August 2nd to September 2nd inclusive. All costs have been reduced as low as possible. Everything is provided for you at a fee of \$7.00 (full tent or \$1.00 per day for week-end or part time. Registration fee of \$1.00 is included in both cases.

Transportation to Sylvan Lake will be provided for you at the least possible cost.

Write to Camp Committee, Christian Commonwealth Youth Movement Council, 228 Examiner Bldg., Calgary for further information.

Registrations should be sent in not later than August 15th.

(Continued on back page)

## MEMBER LAST HOUSE MAKING TOUR OF RIDING

A. B. CLAYPOOL VISITS CARBON AND OTHER PARTS OF RIDING

WILL HOLD 30 MEETINGS

Mr. A. B. Claypool, M.L.A. for Didsbury was a Carbon visitor on Saturday and in conversation with the editor of The Chronicle stated that the people of this district need have no fear in getting the new highway granted. He was assured that as soon as the grading was completed and the road ready for travel, that the work would be undertaken. New roads have to settle before travel is applied and it will probably be this fall before travelling contracts are let.

Mr. Claypool is on a tour of the Didsbury Constituency and stated that conditions in general were better than at election time in 1930 and he had every confidence in himself and party at the coming polls. Crops over the entire constituency were above normal at the present time, he stated, and farmers are in a better state of mind over prospects.

The U. P. A. member also stated that he and his colleagues would conduct approximately 30 meetings in the constituency between the announcement and date of election.

## FIFTH ALBERTA CROP REPORT FAVOURABLE

Issued by Department of Agriculture Province of Alberta

The crop situation in Alberta as it now stands presents the most varied conditions in many years. Over the larger proportion of the cultivated area of the province, conditions of the growing crops may still be described as satisfactory and in some parts exceptionally good, but due to continued dry weather in parts of the south, and in the extreme, continued heavy rains in the northern districts, the degree of excellence for the general province is somewhat reduced, and the prospects for a very large grain harvest is less promising.

What is in the short blade, and heading out in most districts at varying heights. The sections suffering from the heaviest conditions include the territory from Lethbridge south-west to Carbon, west to Pincher, and in the north and north-west to Vulcan and Lethbridge, and beyond as well as the territory along the eastern border of the province from north of Medicine Hat to the south.

Along the C.P.R. line north from Chatham to Calgary, and east to Vulcan and to Brooks on the main line, the conditions are generally good, giving some relief, but a general down pour is needed. The fact that cool, cloudy weather has prevailed on occasions through these districts has prevented more serious damage from drought.

Transportation to Sylvan Lake will be provided for you at the least possible cost.

Write to Camp Committee, Christian Commonwealth Youth Movement Council, 228 Examiner Bldg., Calgary for further information.

Registrations should be sent in not later than August 15th.

(Continued on back page)

## Letters to the Editor

EDITOR, The Chronicle: Dear Sir:

On July 2nd a Social Credit meeting was held in Hesketh, addressed by Mr. E. M. Foster, who is hoping to be the Aberhart candidate for Didsbury riding.

Mr. Foster was introduced by a Mr. Foster, who made quite a long speech in which he said that he did not understand Social Credit. In Social Credit such a strange mysterious affair that the Aberhart party can't get a man who understands it to introduce his candidate! Talk about bringing a pig in a poke!

Mr. Foster, however, did profess to understand it. He described how he proposed to raise ten millions extra taxes in Alberta to make 120 millions for basic dividends. Well, seeing that the present government only succeeds in collecting about 15 millions in taxes for everything, an extra 10 millions added on will put a great many people out of business.

He next proceeded to explain how the 10 millions would swell into 120 millions. Suppose a farmer engaged a man at ten dollars a month. He give the man ten dollars for the first month and then plays poker with the man and wins a buck. He loses the same every month and therefore, says Mr. Foster, does the business of \$120 with just ten dollars.

When question time arrived and there was talk of the campaign fund some one suggested that they should just collect one-twentieth part of what was needed for the fund and then wiggle it around a bit until it swelled into the required amount. He answered that they did not have the credit to do that. Mr. McEwan asked what credit would they have outside of the ability to put on taxes. He replied the natural resources. Mr. McEwan pointed out that the present government had more credit before it got the natural resources. He asked if it was likely that if he owned all the undeveloped coal which lies buried in the north here would he have credit to let Mr. Foster, however, cut short in a rather discouraging manner.

Now all this sort of thing which Mr. Foster is trying to put over on us seems more like the trying to fool a lot of kids than talking seriously to grown men and women. However, I suppose I ought not to blame the poor boy for that is just the way Mr. Aberhart talks. I heard him say over the radio that a certain co-operative society started with only a few dollars and its credit and after a seven-year period

owned over several thousands. He gave that as an example of the way in which money got for Social Credit would swell.

Does Mr. Aberhart really think that the government can take the taxpayers' money and trade with it, as that co-operative society did?

Now fellow constituents of the Didsbury riding are we really going to send a man to the Legislature to represent us who says that 10 is going to swell into 120 in some marvellous way, which Social Crediters themselves can't understand? Won't we make a laughing stock of ourselves if we do?

For that matter if we vote Mr. Aberhart our Premier we will make Alberta a laughing stock of the next world. That was why Major Douglas had to turn down Mr. Aberhart. He knew that if he supported Mr. Aberhart, and Mr. Aberhart succeeded in bringing in his crazy ideas, he and the Social Credit would become a laughing stock as well as Mr. Aberhart.

Therefore, although he hated to discourage a man who said such nice things about him and advised him so much, he just had to.

So in his letter to Mr. Lynburn he said that Mr. Aberhart was mistaken in his theory of the velocity of circulation. That means Mr. Aberhart's idea that he make 10 to do the work of 120 by wiggling it around enough. To often the kids he said that many orthodox bankers made the same mistake. He also mentioned other mistakes Mr. Aberhart made. He ended by advising us not to take Mr. Aberhart too seriously unless he attempted to put his proposals into practice. That is to say, "Let Mr. Aberhart put as many little jokes as he likes about giving us all \$25 a month and taxing us to raise 10 millions and then swelling it out to 120 millions, but if he really attempts to try that, sit upon him good and plenty." So I would say, tell upon Mr. Foster good and plenty and elect someone who can at least talk sense.

A.M. THORBURN, Hesketh, Alta.

Editor, Carbon Chronicle, Dear Sir:

I have been interested in the letters that have appeared in your paper. It seems to me that Mrs. Thorburn asked a very important and sensible question which has not been answered in any reasonable manner by the Social Credit supporters.

## YOU BUY ROADS, TOO!

The accompanying chart shows how the price of gasoline to the retailer has decreased and the gasoline tax has increased since 1924. In 1924 the average price to the retailer of all gasoline sold in Canada was 25.6 cents per gallon. Since 1924, the price has fallen almost continuously until in 1934 it stood at the unprecedented low of 18.8 cents—a decrease of 29 per cent. But as the price of gasoline fell, the tax on gasoline rose. The data for this graph are based on figures published by the Dominion Bureau of Statistics.

WHEN you buy gasoline, you also buy roads over which to drive your car.

Approximately one-fifth to one-third of the price you pay goes directly to your Provincial Government in road tax.

Twelve years ago there was no gasoline tax. Today the tax ranges from six to eight cents per gallon. And yet the cost of gasoline to you is no more because during those twelve years the price of gasoline has been steadily reduced.

Imperial Oil played a leading part in the developments that made lower prices possible. But lower prices were not achieved at the expense of labor. Imperial Oil employees have always been well paid. They work under ideal conditions. They have sickness and death benefits and pension plans to protect them and their dependents. Five thousand of them are part owners of the Company. They are given every incentive to work efficiently and happily. The result has been better gasoline at lower and lower prices.

## IMPERIAL OIL LIMITED

## MICKEY MOUSE—MASTER SALESMAN

Mickey Mouse, pride of Hollywood, has also become a star salesman of world-wide fame. You, who delight to see Mickey galloping through his various antics on the screen, will no doubt be surprised to learn that merchandise bearing his likeness—or that of his friends—has sold to the amount of \$26,000,000 in the past 12 months. This figure is exclusive of the work he has done in recent months for General Foods and National Dairy Products.

His sales list today includes hundreds of items, ranging from tooth brushes to tricycles; his prices, at retail, run from a few cents to \$12.50. At present Mickey is working for

75 manufacturers in the United States, 45 in England, 26 in Canada, 6 in France and 4 in Spain and Portugal. He works in every large departmental store in the country; is actively engaged in 14 separate departments at Macy's in New York.

Among his more prominent manufacturing employers are: RCA-Victor Company, Inc.; International Silver Company; Helok Manufacturing Company; Ilco; Canadian Postum Company and International Waterbury Company. It is stated that he has sold two million Jergensol watches in the last 14 months.

Back of Mickey Mouse, of course, is Walt Disney, his creator and the Walt Disney Enterprises. Character and price of merchandise, size and importance of the manufacturing com-

pany, extent of distribution, and nature of retail outlets are the factors that determine the cost of Mickey's employment.—Wampoles Dealer Helps.

## TEN FINE RULES TO READ AND FOLLOW

Posted in an Ontario drug store is the following set of rules for store employees but they cover a pretty good line of conduct for any employee anywhere.

1. Don't lie. It wastes my time and yours. I'm sure to catch you in the end—and that is the worst end.
2. Watch your work, not the clock. A long day's work makes a long day short and a short day's work makes my face long.
3. You owe so much to yourself you

can't afford to owe anyone else. Keep out of debt—or keep out of my shop.

5. Dishonesty is never an accident. Remember that.

6. Mind your own business and in time you'll have a business of your own to mind.

7. Don't do anything here which hurts your self-respect.

8. It's none of my business what you do at night—but if dissipation affects what you do the next day, and you do half as much as what I expect you'll last half as long as you hoped.

9. Don't tell me what I'd like to hear, but what I ought to hear. I don't want a valet to my valet, but one for my dollars.

10. Don't kick if I kick. If you're worth-while, you're worth while keeping.—Keechance.

## HINTS FOR HOUSEHOLD

## It's Rhubarb Time Again

Fresh rhubarb is one of the most appetizing tonics provided by nature, and it is a real tonic, coming early as it does when few other fresh foods are available. Scientists agree that it contains vitamins and minerals which are particularly valuable in the spring. In preserving rhubarb for use during the fall and winter, the problem is to retain as well as possible the freshness of the spring product. To do this be sure to preserve and can the rhubarb when it has just reached its full growth. Rhubarb which is past its best when it is canned will still be most its best afterwards.

If rhubarb has become somewhat of a staple in your home it would seem advisable to preserve it in several ways in order to make variety. The following methods are recommended as well as the ordinary method of preserving and the cold pack method of canning.

**Sugarless and Waterless Rhubarb**  
Sterilize all-tight jars of any size by boiling in water for ten minutes. At the same time sterilize a wooden spoon or mallet. Allow jars and spoon to cool.

Wash rhubarb but do not peel. Wash and cut into half or three quarter inch lengths. Put a few pieces of the rhubarb in the jar and crush with the spoon. Continue adding rhubarb and juice—as long as the rhubarb is covered with juice it is not necessary to crush each piece. Seal the jar tight wrap it in brown paper and store in a cool dry place.

No cooking is necessary until the rhubarb is used in the winter when it will make delicious pies and puddings.

## Canned Baked Rhubarb

Wash rhubarb and cut into half or three quarter-inch lengths. Place in a boiling dish or casserole adding 1 cup of sugar to every 4 cups of rhubarb. Cover and bake in a moderate oven until tender. If care is taken the pieces will remain whole. Pack into sterilized jars, seal tight, and store in a cool dry place.

Accepted Swain—I know I'm not so much to look at.

The Girl—Still, you'll be at work all day.

## You Must Keep on Buying

## Or You'll Soon Stop Selling

People are buying today—don't make any mistake about it. If they are not buying from you, they are buying from somebody else—and when they buy they usually go where stocks offer best variety.

**THE CHRONICLE Office** is specially equipped to handle all kinds of ruled forms, such as those used by mining concerns, Villages, Municipalities and other business places.

When you have something worth advertising—tell it to the people who have money to spend—through a circular, or an advertisement in

"A Modern Service at a Moderate Price"

TOURISTS SPENT \$500,000 MORE  
DURING PAST YEAR

Motor tourists spent approximately \$500,000 in this province last year, based upon the number of car registrations at the national parks in Alberta, that is the amount which visitors, lured by the scenic beauties of this province, hunting, fishing, or other driving camps, put into circulation here.

Obviously business benefited, producers had the demand for their products strengthened to that extent, and recovery was helped through the improved purchasing power thus created.

Of the sum spent by motor tourists, a large proportion would go to the farmers, as it would be the farms where much of the buying would take place, and that would be cash business.

All of which goes to prove what has been urged by officers of the Alberta Motor Association from time to time that hard surfaced highways will bring thousands more motor tourists to Alberta each season and open new outlets for producers of primary products.

If five million dollars were spent here last year, when the country was in the grip of a depression, how much more would be expended with highways hard surfaced so that motorists would be enabled to travel in any season and in the province without pulling adverse weather conditions?

The improved all-weather highway will bring new business to the farmer's door, to the retailer, and all others catering to the trade. This is a time when political candidates should be urged to support highway improvements which will result in this province experiencing a tourist tide that will stimulate forcefully the arrival of better times.

Son (entering office)—"Well, dad, I just ran up to say hello."

"Too late, my boy. Your mother ran up to say hello, and got all my change."

TOWN & COUNTY  
Personalographs

C. H. Nash has a new Humphobile special sedan, having traded in his De Sota last week on the new car.

The S. F. Torrance family spent the week end at Sylvan Lake.

Messrs. Wilfred and Lawrence Poxon left on Tuesday for Pine Lake, where they will spend a couple of week's holiday.

Mr. and Mrs. Aaron Klassen returned on Saturday from a two-week's holiday, spent in various parts of Alberta.

Don't forget that next Wednesday is clean-up day at the local centres!

Messrs. Alice and Rosale Reed, and Jesse Patterson are holidaying at Pine Lake.

Mrs. Jas. Smith spent Friday in Calgary with her father, Jack James, of Kelowna, who was in the city.

Mrs. Jas. Ramsay, Bruce and Mabel, and Miss Kathleen Watkins, returned on Sunday from a two-week holiday at Waterton Lakes.

Mr. and Mrs. Fred Bessant left on Sunday for a few days holiday at Banff.

Mr. and Mrs. Paul Schoeppe and family left Carbon last Saturday and have moved to Calgary.

Mr. and Mrs. L. Coates and family of Lloydminster are visiting with Mrs. Coates' parents, Mr. and Mrs. E. Maxwell.

The road camp which has been stationed at Carbon for the past couple of months, left on Monday and have located about eight miles west of here.

Mr. and Mrs. T. G. Johnson and Betty returned on Thursday last from a holiday at Banff.

Mrs. T. R. Olive returned the first of the week from Drumheller, where she was employed as dietitian at the Drumheller hospital.

Mr. and Mrs. C. L. MacGregor and family left on Sunday for Montserrat, where they will spend a three-week's vacation.

Paul and Fergus Greenan, and Wilfred Skerry returned on Sunday from Pine Lake, where they spent a couple of week's camping.

Francis Poxon returned to Carbon on Sunday from camp west of Calgary.

The cactus plants are in bloom on the hills around Carbon, and further east, near Drumheller and along the Red Deer these plants are numerous. It is not often during the year that this is the first time in a number of years that these plants have bloomed to any extent around Carbon.

Mr. and Mrs. T. Heath of Heeketh are the proud parents of a new son, Reginald Clive, born in the Drumheller hospital on June 24th. While in the hospital Mrs. Heath received a most beautiful bouquet of powers from the Carbon Old "Timers" Association.

Perry Johnson left on Monday on a couple of weeks holiday in northern and western Alberta points.

They say that pike are biting on the fly at Pine Lake and some good catches are being made. According to McLean's Magazine the pike is a wonderful game fish when hooked on light tackle.

IS FORTY CENTS A BUSHEL  
ENOUGH FOR OUR WHEAT?

Do Western Canadian farmers think that forty cents a bushel for their wheat at delivery points is sufficient to represent their production costs? Recently James Macdonald, prominent grain man of Winnipeg, considers 40 cents as being a price basis which our Canadian farmers should be prepared to accept for their wheat. If necessary, in forcing the disposal of our wheat surplus on the world's markets, under a continuation of the open market system as advocated by him.

He told the federal parliamentary committee at Ottawa, taking evidence on the proposal to establish a federal wheat board, that farmers had told him they could get by at forty cents a bushel.

The Wheat Pools and other farm organizations have always contended that any such a price was ridiculous low and would ruin the wheat growing industry in Western Canada.

"Can it be that the Pools and the farm organizations were mistaken?" Will the buying power of the West be maintained on the 40c wheat? Will the farmers who are told Mr. Richardson they could get by on 40c wheat?

A little enlightening on this matter might be in order.

have same by proving claim and  
paying for this advertisement at the  
Chronicle Office.

## ALBERTA CROP REPORT NO. 5

(continued from front page)

generally speaking are very promising particularly in the more western sections. Rainfall throughout this entire territory has been quite satisfactory, and while not so heavy towards the eastern sections, has been sufficient to provide good healthy growth to the grains thus far.

In the districts north and northwest from Edmonton and throughout the Peace River-Grande Prairie districts, the rains have been so continu-

ous as to seriously retard the growth of the crops, and warm dry weather is the immediate need if normal growth is to be obtained. In some localities where flood conditions have prevailed fields of grain are practically inundated.

Hail storms have done slight damage in a number of districts in the

central and southern areas. Outcrops of the crops, and warm dry weather in some districts, and grasshoppers are damaging crops in some of the drier areas, where poisoning operations have been proceeding steadily. The damage from this source, however, has been generally small compared with the past few years.

## SPECIALS TILL END OF JULY

## MEN'S WEAR

## MADE-TO-MEASURE SUITS

10 PER CENT OFF ALL REGULAR PRICES  
UNTIL THE END OF JULY ONLY. TAKE ADVANTAGE OF THIS SAVING AND ORDER YOUR SUIT NOW. ALL QUALITY MATERIAL ENGLISH WOOLLENS.
